

# Seeing is believing.

SenoBright™ HD Contrast-Enhanced Spectral Mammography Education is Here!

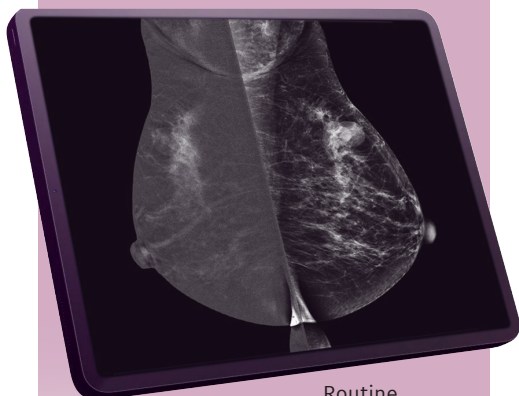

Implement one of the best mammography technologies available to your patient.

**Look no further. Contrast-Enhanced Spectral Mammography education is here.**

**Introducing the SenoBright™ Club –a digital ecosystem designed for SenoBright customers to share ideas and best practices, discuss CESM cases and implementation, and stay at the forefront of advancements in breast imaging.**

Members of this online community are connected to other SenoBright and Serena Bright users across the country and have access to a variety of resources including:

- News and Upcoming Events such as press releases and conferences
- Peer-to-Peer Forums for CESM and biopsy users designed to enable exchange between professionals to share best practices and ideas
- Educational materials including case studies, clinical images, publications, webinars, and access to expert consultants
- Marketing materials for patients and referring physicians, press releases, articles & storytelling
